* A bath is recommended if your dog is playing in the day care group. It is common for other dogs to slobber on them and/or they may roll in sand while playing in our yards.

* It is our guarantee that your dog will leave our facility flea and tick free.

FLEA AND TICK POLICY:

To ensure that we maintain a flea and tick free environment, our facility is on a monthly extermination program inside and outside. Pets will be inspected for fleas and ticks upon check-in and checkout. We reserve the right to refuse pets with fleas or ticks. We require all pets receiving boarding, day care and grooming services to be on a flea and tick preventative, as well as a heartworm/hookworm preventative.

Pets can encounter parasites in dog parks, grooming salons, vet hospital waiting rooms, owner's yards and common areas in neighborhoods, etc.; therefore, K9-Paradise Retreat is not responsible for flea or tick problems after the dog has exited the facility. It is the customer's responsibility to thoroughly inspect their dog prior to leaving our facility. We advise customers whose pets are found to have fleas and ticks at the time of check-in to: exterminate their home, yard and their dog's bedding and re-apply their flea preventative before returning their dog back into the home environment.

If fleas are found on a dog during the check-in inspection, a flea bath may be given if our schedule allows. If our schedule does not allow and/or the case is severe, the customer or emergency contact must remove the dog from our facility to be professionally bathed elsewhere in order to return.

Ticks are very difficult to find and kill. Young ticks can be as small as a grain of pepper. Therefore, if ticks are found on a pet at check in the pet may not stay in our facility. We do not offer chemical shampoo, dipping or de-ticking services. The customer or emergency contact must remove the pet immediately from our facility. Prior to returning to our facility, the pet must be professionally bathed and de-ticked and the owner must provide a tick preventative to be applied by us. The owner or emergency contact must wait for the pet to be re-inspected. If ticks are still found, the owner must remove the pet from our facility.

EXCESSIVE BARKING POLICY:

We pride ourselves on maintaining a stress free environment for the dogs we care for. Day care facilities have a responsibility to control the indoor noise level for all of their pet guests' health and employee health. It is our job as pet care professionals to make every dog's stay a pleasant one. By maintaining a low stress environment, the incidence of stress related illnesses is decreased. The following are additional reasons why we are dedicated to minimizing the noise level of our facility:

There is normal barking during play and there is excessive barking that cannot be soothed. Non-stop barking is usually a sign of anxiety, which is our responsibility to remedy. Constant barking causes stress for the dog that is excessively barking and causes stress for the other dogs that are exposed to the barking. Stress weakens the immune system, making a dog more susceptible to upper respiratory and intestinal conditions. Straining of a dog's vocal cords from excessive barking can cause the dog to become hoarse and lose its voice completely. It is not acceptable to us to send a dog home without a voice or with a sore throat.

If we are unable to soothe a dog's excessive barking with exercise, group play, extra attention, natural calming remedies or permanently relocating to a quiet room, the pet owner or emergency contact person will be contacted to discuss other options, which in extreme cases may include removal from our facility.

CHECK IN AND CHECK OUT:

* We charge by the night. The overnight stay rate begins at 6:00 PM and ends at 12:00 PM the next day.

* For check outs after 1:00 PM, a discounted day care rate of \$25.00 per dog will be charged.

EARLY CHECK OUTS:

* We schedule baths and exit inspections according to our customers' check out times. So, if you would like to pick up your dog earlier than the time you scheduled, we will try our best to accommodate you.

* Even if your dog is not receiving an exit bath, check out times must be scheduled, as this will allow us the time to provide our required thorough inspection, ear cleaning and brush out of all departing guests at no charge.
